Dear Sir or Madam:

The attached documents are submitted to comply with the regulations effective on January 1, 2006 - for AB 1045 (Chapter 532, Statutes of 2005) amendment of the Payers' Bill of Rights established by AB 1627 (Chapter 582, Statutes of 2003).

The first two worksheets contain a copy of St. Jude Medical Center's active chargemaster. The first is a listing of non-pharmacy services and supplies with patient charges and the second, a listing of pharmaceuticals with patient charges. The pharmaceutical listing has two patient charge columns to distinguish the patient charge for oral/injection and intravenous administration, taking into account the mark-up percentage. Pricing for these documents was effective on June 1, 2011. Sheet three is a list of commonly charged services with the out patient charge as of June 1, 2011. As recommended, we have utilized the format developed by OSHPD. The remaining sheets provide the Medical Center's active chargemaster on June 1, 2010 and June 1, 2011 with utilization and pricing from June 2010 through May, 2011. The change in gross revenue for this 12 month time period is 5.69%. This year, the calculation does not include new charges that took effect after June 1, 2010.

If you have any questions with these documents, please send them to katie.moore@stjoe.org or contact Katie Moore, CDM Analyst at 714.446.5062.

Best Regards,

Ed Salvador
Vice President, Finance
Chief Financial Officer
